

WOCA Residential Maintenance Schedule

1. Daily Maintenance (if necessary) – **WOCA Natural Soap Spray Bottle (Natural or White)**

- Spot Spray any affected areas and wipe with dry cloth/mop.

2. Bi-weekly (Every 2 weeks) Maintenance

WOCA Natural Soap, Grey (2.5L only), Natural or White. Available in 1 liter, 2.5 liter & 5 liter concentrate.

Coverage is 3000-4000 SF/liter.

- Sweep area regularly.
- Mop using WOCA NATURAL SOAP (NATURAL or WHITE)) mixed 3oz of Soap/gallon of water.
- Use lint free cloths and mops for dry mopping and WELL RUNG wet mopping.
- Do not use Microfiber cloths or mops as they are mildly abrasive and will eventually wear down an oil finish. We recommend mopping with a quality cotton yarn twist mop.

3. Quarterly (3-4 times year)

WOCA Oil Refresher, Natural or White. Available in 1 liter & 2.5 liter concentrate.

Coverage is 1500-2000 SF/liter.

- Every 3 to 4 months WOCA Oil Refresher is used to clean/refresh the floor. WOCA Oil Refresher Maintenance product (Natural or White) is a partner to the WOCA Natural Soap. WOCA Oil Refresher combines efficient cleaning with oil rejuvenation, as additional oil penetrates the wood and reinforces the existing oil finish.
- Mop using WOCA OIL REFRESHER (NATURAL or WHITE)
For site finished oiled floors and oxidative oiled floors: 6 oz/gallon of water.
For UV-oiled and Hardwax oiled floors: 3 oz/gallon of water.
- Use lint free cloths and mops for dry mopping and WELL RUNG wet mopping.
- Do not use Microfiber cloths or mops as they are mildly abrasive and will eventually wear down an oil finish. We recommend mopping with a quality cotton yarn twist mop.

4. Re-Oiling Maintenance (3-5 years) **WOCA Maintenance Gel, WOCA Master Oil, WOCA Color Oil, or WOCA Diamond Oil, or WOCA Maintenance Diamond Oil Active:**

- Re-oiling is typically a machine buff application. Contact your local flooring professional for application.
- The schedule for this type of cleaning will need to be adjusted based on the look of the floor from lifestyle, traffic, etc.

***If the floor is factory finished, always comply with the manufacturer's care and maintenance instructions.**
