Medication Reminders

Operating Instructions
e-pill® MedGlider HOME PLUS

SKU: 843742 **UPC:** 837066000633

Thank you for purchasing an
e-pill Medication Reminder

We suggest you to read the following instructions carefully and keep them for future reference.

This easy-to-use rechargeable e-pill reminder can remind you to take your medications up to 4 times per day. It has a loud beeping alarm and visual indicator. This e-pill features a unique indicator that counts down to your next alarm time. The e-pill Medication HOME PLUS allows you to set individual alarm times for each day of the week.

Setting up Your e-pill® MedGlider HOME PLUS

Please activate the timer by removing the plastic bag from the rechargeable battery located in the battery compartment.

Setting the Time and Day

Default screen as shown

Day:

1. Press and hold down the **SET** button until the Day of the Week starts flashing.
2. Use ▲ and ▼ to adjust to current Day.
3. Press **SET** to confirm.

Time:

1. The Hour starts to flash after Day is confirmed.
2. Use ▲ and ▼ to adjust to current Hour.
3. Ensure **AM** or **PM** is correct.
4. Press **SET** to confirm.
5. The Minute starts to flash.
6. Use ▲ and ▼ to adjust to current Minutes.
7. Press **SET** to confirm.

Nothing should be flashing after the time is set.

Setting the Alarms

Alarm:

1. Press and hold down the **ALM** button until the Day of the Week starts flashing.
2. Press ▲ and ▼ to adjust the Day of the Week.
3. Press **SET** to confirm.
4. Day Segment (MORN, NOON, EVEN, BED) will start to blink.
5. Press ▲ and ▼ to choose Day Segment.
6. Press **SET** Hour will start to flash.
7. Press ▲ and ▼ to adjust to the Hour.
8. Press **SET** Minutes will start to flash.
9. Press ▲ and ▼ to adjust the Minutes.
10. Press **SET** to save alarm.

Repeat Steps 1-10 for each Day Segment & Day of the Week. It allows you to set different alarms for every day.

Daily Use

Turning Off Alarms

There are two types of alarm notification:
1. Flashing screen
2. Alarm sound

Snooze

This reminder has a SNZ (Snooze) feature. The first time you press the **STOP** button, it will stop the alarm and SNZ will show up on the top left corner of the screen. The alarm will come back on 5 minutes later.

*If you do not press the **STOP** button to stop the delay alarm, the alarm will go off for 30 minutes. After 30 minutes, the screen will keep flashing until the **STOP** button has been pressed for the second time.

You can turn off the alarm directly by pressing the **STOP** button twice (No Snooze).

Checking the Alarms

1. Press the **CHK** (Check) button.
2. **CHK** will appear on the top left corner of the screen.
3. Press ▲ and ▼ button to check each alarm.
4. Press **STOP** to exit.

Removing Alarms

1. Press and hold down the **ALM** button until the Day of the Week starts flashing.
2. Choose the alarm that you would want to remove by pressing ▲ and ▼ button.
3. Press **SET** button twice and Hour starts to flash.
4. Simply press and hold down the **CHK** button to remove the alarm.
   "(--:--)" should appear.
5. Press **STOP** to return to the current Day and Time.

Any time pills are missed, you should follow the directions from your physician or pharmacist before taking any medication (pill) out of sequence.

Low Battery Alert

When the battery level is lower than 25% the battery icon on the top right corner will start to flash to indicate a low battery level. Recharge the battery by using the included AC Adapter.

Do not use any other AC Adapter to recharge your e-pill MedGlider HOME PLUS.

We recommend that you charge your timer each day.

Disclaimer

This e-pill Medication Reminder is only a supplement of any memory system that you are currently use to remind yourself to take medications.
