

Benefits of a Tamper-resistant e-pill® Automatic Pill Dispenser

Clinically Tested

"Among patients on a waiting list to receive comprehensive treatment, interim dosing with buprenorphine, paired with technology-assisted components intended to support adherence [the e-pill Med-O-Wheel SECURE], was associated with a statistically significant reduction in the use of illicit opioids and intravenous drugs as compared with remaining on the waiting list alone over 12 weeks."

- New England Journal of Medicine article: Medication-Assisted Therapies - M.D. N Engl J Med 2014; 370:2063-2066 May 29, 2014 DOI: 10.1056/NEJMp1402780

How often will the automatic pill dispenser need to be filled?

How often an automatic pill dispenser needs to be refilled is dependent on how many times per day the patient takes their medication.* Most e-pill dispensers have 28 compartments, each holding the patient's medications for one alarm time.

Alarms per Day	Refill Tray After
1	28 days
2	14 days
3	9 days
4	7 days
5	5 days
6	4 days

Version 170508

**Please note that the e-pill CompuMed is an exception; it must be filled weekly regardless of how any doses are dispensed per day.*

How an e-pill Automatic Pill Dispenser Works

The machine is filled by a caretaker or pharmacist, then the unit is locked. Alarms are set to go off multiple times at the same time every day.

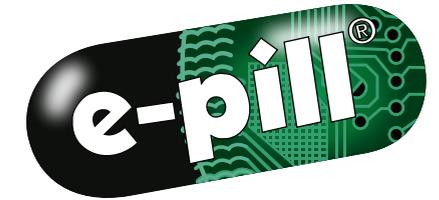

A flashing light turns on and a melody plays to remind the patient to walk over to the machine.

Medication is dispensed when the alarm goes off and the patient turns the dispenser upside-down.

e-pill® MedTime SAFE

The e-pill MedTime SAFE is a locked, tamper-resistant automatic pill dispenser that limits patients to the prescribed amount of medication at the scheduled time. This is designed for patients that take pain pills, Schedule II/ III drugs, or anti-psychotics. When the alarm goes off the patient turns the dispenser upside-down, which causes the pills to fall through a metal spout and into their other hand. The alarm turns off automatically.

- Alarm with loud sound and flashing light
- Dispenses Medication Up to 6 times per day
- Tamper-resistant Locked Automatic Pill Dispenser (includes 8 Keys- 2 for Pill Dispenser, 2 for Lid Lock, 2 for Padlock and 2 for Cable Lock)
- Alarm time duration of up to 30 minutes
- Padlock and Cable Lock included • No Monthly Fees

Size: 10" diameter x 3" height

Weight: 3.2 lbs **Daily Alarms:** 6

Capacity: 18 aspirin sized pills per Medication Event

Retail Price: \$750.00 **SKU:** 998046

e-pill® MedTime PLUS

The e-pill Med-Time PLUS is ideal for patients taking medication many times a day. This device has a patient info display that shows Date and Time, when the Next Medication Dose is due, the Doses Left and the Battery Level. This helps improve adherence and avoid medication errors. When the alarm goes off the patient turns the dispenser over, which causes the pills to fall into their hand and the alarm to turn off.

- Simple to Use Fully Automatic Pill Dispenser
- Dispenses Medication Up to 24 times per day
- Alarm with loud sound and flashing light
- Lockable with 2 Keys • Optional Start & Stop Date
- Auto-Lock Dispensing Door • Patient Display
- User controllable Alarm Duration (5 min - 5 hours)
- Dispensing History Log • No Monthly Fees

Size: 7" wide x 2" high x 7.5" long

Weight: 1.1 lbs **Daily Alarms:** 24

Capacity: 18 aspirin sized pills per Medication Event

Retail Price: \$595.00 **SKU:** 992030

e-pill® Med-O-Wheel SECURE

The e-pill Med-O-Wheel SECURE has been clinically tested in Unobserved Opioid Substitution Treatment programs. This portable locked pill dispenser gives the right medication at the right time. Its unique locking feature closes 5 minutes after meds have been taken, making it suitable for professional use by rehabilitation and mental health care professionals. This device has a built-in tamper alarm- a flashing light will appear if the unit has been tampered with.

- Tamper-resistant Portable Automatic Pill Dispenser
- Dispenses medication up to 4 Times per day
- Alarm with Loud Sound and Flashing Light
- Three hour (180 minutes) medication dosing window, with an Early Dose 1 Hour Before Sounding Alarm
- Includes 2 Trays for easy filling

- Built-in Tamper Alarm • No Monthly Fees

Size: 5.5" diameter x 2.5" height

Weight: 11 oz **Daily Alarms:** 4

Capacity: 6 aspirin sized pills per Medication Event

Retail Price: \$650.00 **SKU:** 870812

e-pill® CompuMed PLUS

The e-pill CompuMed PLUS is a tamper-resistant automatic pill dispenser with a metal security lid. This device limits patients only to the appropriate amount of medication. It dispenses up to four times a day and the alarm will sound continuously until the medications are removed. Two refillable secure trays are provided to allow for remote filling. This is a weekly system that is designed to help patients become more independent.

- Tamper-Resistant Pill Dispenser with Security Lid
- Dispenses medication up to 4 Times per day
- Lockable with 2 keys & padlock • 2 Refillable trays
- Text message instructions scroll across screen
- Buzzer Sounds until the pills are removed
- Adjustable Volume on Audio Alarm • Battery Back-Up
- Easy to Program and Set Up. • No Monthly Fees

Size: 7" wide x 6" high x 11" deep
