

Benefits of an e-pill[®] Automatic Pill Dispenser

Peace of Mind & Cost Savings

An **e-pill** Automatic Pill Dispenser provides the right medications at the right dose at the right time. This helps to:

- Preserve patient independence.
- Improve health by promoting patient compliance.
- Reduce medication errors and non-adherence.
- Reduce caregiver stress.

A recent clinical study shows an annual cost savings of up to **\$5,400** per dispenser in reduced hospital re-admissions and medication prompting visits.¹

¹Automated Pill Dispenser End Project Evaluation Report, March 2012

How often will the automatic pill dispenser need to be filled?

How often an automatic pill dispenser needs to be refilled is dependent on how many times per day the patient takes their medication. These e-pill dispensers have 28 compartments, each holding the patient's medications for one alarm time.

Alarms per Day	Refill Tray After
1	28 days
2	14 days
3	9 days
4	7 days
5	5 days
6	4 days

Version 150129

How an e-pill Automatic Pill Dispenser Works

The machine is filled by a caretaker or pharmacist, then the unit is locked. Alarms are set to go off at the same time every day.

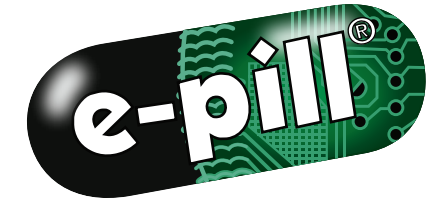

A flashing light turns on and a melody plays to remind the patient to walk over to the machine.

Medication is dispensed when the alarm goes off and the patient turns the dispenser upside-down.

e-pill® MedTime STATION

The e-pill MedTime Station is a locked automatic pill dispenser that sits on top of a tipping device. This is ideal for patients that have dexterity problems- all they have to do is pull the blue handle forward when the alarm goes off. The medications will fall into a provided stainless steel medicine cup. The alarm is automatically turned off.

- Fully Automatic Pill Dispenser - No Monthly Fees
- Easy Set-Up and Simple to Use
- Dispenses Medication Up to **4** times per day
- Lockable with 2 Keys and 1 Tray for easy filling
- Long Alarm time duration (up to 30 minutes)
- Alarm with loud sound and flashing light
- Separate Medication Trays are Available

Size: 9" wide x 8" high x 10" deep
Weight: 45 oz **Daily Alarms:** 4
Capacity: 18 aspirin sized pills per Medication Event
Retail Price: \$450.00 **SKU:** 996024

e-pill® MedTime XL

The e-pill Med-Time XL is ideal for patients taking medication many times a day. This device has an internal history log that can help patients and caregivers look for patterns in missed medication, which helps improve adherence and avoid medication errors. When the alarm goes off the patient turns the dispenser upside-down, which causes the pills to fall into their hand. The alarm is automatically turned off.

- Fully Automatic Pill Dispenser
- Easy Set-Up and Simple to Use
- Dispenses Medication Up to **28** times per day
- Lockable with 2 Keys and 2 Trays
- Long Alarm time duration (up to 60 minutes)
- Alarm with loud sound and flashing light
- Dispensing History Log
- No Monthly Fees

Size: 7.5" diameter x 2.5" high
Weight: 17 oz **Daily Alarms:** 28
Capacity: 15 aspirin sized pills per Medication Event
Retail Price: \$495.00 **SKU:** 991019

e-pill® MedSmart

The e-pill MedSmart is a robust model with an AC powered docking station (included), larger compartments, and easy-to-hold rubber grips for those with dexterity problems. Other added features include an Early Dose Button, an LCD screen on the front of the device that tells the user how many doses are left to take for the day and the next scheduled alarm.

- Simple to Use Fully Automatic Pill Dispenser
- Dispenses Medication Up to **6** times per day
- Alarm with loud sound and flashing light
- Lockable with 2 Keys and 2 Trays
- Alarm sounds indefinitely until medications are taken
- Patient Compliance Dashboard™
- AC Operation
- No Monthly Fees

Size: 8" wide x 3.5" high x 9.5" deep **Daily Alarms:** 6
Weight of Dispenser: 28 oz **Total Weight:** 2.3 lbs
Capacity: 20 aspirin sized pills per Medication Event
Retail Price: \$595.00 **SKU:** 993019

e-pill® MedSmart PLUS

The e-pill MedSmart PLUS offers patient monitoring in addition to the features and benefits of the MedSmart.

The MedSmart PLUS gives an **unlimited number** of caregivers notification if the patient is late taking medications by phone, email, or text messaging (SMS). This service also includes online access to medication dispensing history. There are no monthly fees for this service.
