

Monitored Automatic Medication Dispenser

For the customer who wants the very best - MD.2 is #1.....

e-pill MD.2 is our top-of-the-line Automatic Medication Dispenser and Reminder System for tablets and capsules. It has been developed to give the patients' caregiver "peace of mind". When the alarm goes off, the MD.2 reminds the patient to take their medicine by voice message, text and/or light and hands out the right meds at the right time. If the patient misses a dose, the MD.2 phones the caregiver after 90 minutes. The MD.2 also phones the caregiver when it is time for a refill. Its size is about the size of a coffeemaker. Fits easily on your kitchen counter.

- Dispenses up to 6 times per day
- Dispenses in convenient reusable cups (included)
- Holds 60 medication cups
- Lockable cabinet keeps medications safe
- Monthly monitoring fee of \$29.95
- Reminds by voice, text, sound
- Price includes complete system, everything you need

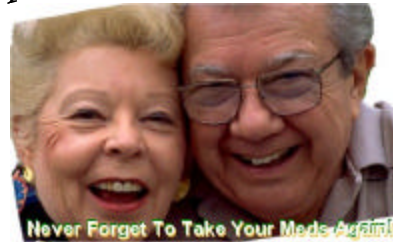

"My mother lives 1200 miles away. I used to call her twice a day to make sure she had taken her medicine. Now I don't have to worry." R.S.

Need access to phone jack. However, it does not need its own phone line. Top of the line auto dispenser.
