

# Thank you for your Bizzy Beds® purchase!

## Unpacking your new Bizzy Bed:

- Carefully remove the plastic wrap. **DO NOT** use a sharp object.
- Flatten out the bed as much as possible.
- Allow the foam to expand for 24-48 hours.
- It may be necessary to shake out or fluff the bed to distribute the foam evenly.

## Caring for your Bizzy Bed:

We recommend hand washing whenever possible. Always test all soaps and cleaners on a small inconspicuous spot prior to cleaning large areas.

- Remove pet hair and fuzz with a lint brush or tape as you would from a garment.
- If the bed is stained:
  - Use water and mild laundry or dish soap.
  - Dab the stain with soapy water using a clean cloth.
  - Remove excess soapy water using a clean wet cloth.
  - Avoid scrubbing.
  - Pat dry.
- For heavier stains a pet friendly upholstery cleaner can be used.
- For light soil wipe with a clean damp cloth.
- For heavily soiled beds:
  - Remove cover (on beds with zipper).
  - Wash cover with laundry detergent, dish soap, or your pet's **non-medicated** shampoo in the bathtub or with a garden hose outdoors.
  - Gently squeeze out as much excess water as possible.
  - Hang / air dry.
- If the interior cushion needs cleaning:
  - Wash with laundry detergent, dish soap, or your pet's **non-medicated** shampoo in the bathtub or with a garden hose.
  - Gently squeeze out as much excess water as possible.
  - Hang / air dry.
  - Once dry, it may be necessary to shake out or fluff the bed to distribute the foam evenly.
  - Beds with solid foam interiors may be pressed flat or rolled up to remove excess water prior to air drying.

Your Bizzy Bed's cover may be machine washed on gentle cycle in a high-capacity washing machine **WITHOUT** an agitator. **DO NOT OVERLOAD YOUR WASHER.** Consult your individual washing machine's instructions for load limits. Alternatively, you could take it to a laundromat or hand wash as described above. **We DO NOT recommend machine washing the interior cushion.**
