Manual Sample – Oil Reminder Reset Tool

Honda

Accord

2001-2005

Press the select switch and the reset switch at the same time, turn the ignition switch them for at least 10 seconds, until the indicator resets.

2000

1. Turn off the engine.
2. Press and hold the select/reset button in the instrument panel, then turn the ignition (Position II).
3. Hold the button for at least 10 seconds, until the indicator resets.

1997-1999

With Reset Button on Instrument Panel Press the select switch and the reset switch at the same time, turn the ignition switch them for at least 10 seconds, until the indicator resets.

1997-1999

With Key Slot on Instrument Panel Reset the indicator by inserting your key in the slot beside the indicator.

1992-1996

The indicator is reset to the start of the maintenance interval by inserting the ignition located on the front of the instrument cluster lens. When reset, the indicator's colored green.

1986-1990

If equipped with a service reminder flag, the oil and oil filter service interval will activate after every 7,500 miles of operation. To reset indicators, insert slots below indicator flags at lower right corner of instrument cluster. Push reminder window changes from red to green.

1982-1985

Three maintenance lamps are located on the lower portion of the speedometer service intervals for engine oil, oil filter and other required service. At approximately miles, these maintenance lamps will change from green to yellow, indicating required. After completing the required service, the maintenance lamps inserting the ignition key into the appropriate slot, on the instrument below When the ignition key is inserted into the slot, the indicator lamp should change to green.
