Office Chairs

ERA Office Chair Arm Options

Our flip-up office chair arms are specially made with comfortable, high-quality foam molded over 14-gauge steel arm frames. These arms will not bend or break. They come upholstered matching the material of your chair, and can be flipped-up parallel with the chair back when not in use. These flip-up arms make entry and exit easy.

Our durable, heavy-duty task arms adjust four ways—up, down, in, and out, to provide you with the ultimate in custom comfort. Our “Diamond Pad” task arm pads are black with a smooth 3D Diamond pattern on top. Our “P-Shaped” task arm pads are sleek, and form the shape of a “P” on the arm of the chair.

Four-Way Adjustable Task Arms
