

High Tensile 10.5 x 12.5 Field Fence

The fence for people who want the size of a standard field fence combined with high tensile toughness, yet it is still one-third lighter than 9 x 11 gauge fencing. Has double the galvanized coating to fight rust and uses higher carbon steel to resist sagging. Choose from either 6" or 12" vertical spacing that graduates from the bottom up.

Item #	Size	Ht.	Spacing	Length
77-5	1047-6	47"	6"	20 rods
77-6	1047-12	47"	12"	20 rods
77-19	939-6	39"	6"	20 rods

Standard Low Carbon Fencing

Built with toughness and long-lasting durability. The low carbon fencing is ideal for general fencing needs. Tightly woven hinge joints bounce back from animal impact, while helping maintain strength and shape of the fence.

High Tensile 12.5 x 14 Field Fence

Fences like 10 x 12 1/2 gauge field fence, yet is one-third lighter. Strong and durable for the long haul. Thanks to high carbon steel it resists sagging and uses hinged joints which flex with impact and spring back into shape. Graduated spacing separates small animals.

Item #	Size	Ht.	Spacing	Length
77-9	1047-6	47"	6"	20 rods

Fixed Knot Cattle Fence

The Unique Fixed-Knot tightly holds the vertical and horizontal wires together, and combined with tension curves, provides superior performance. Animal impact loads are spread out and dissipated over the fence height and width for complete animal protection.
