

### Tin Cat

This multiple catch trap holds up to 30 mice. No poisons, bait or resetting. Sure catch is constructed of heavy gauge galvanized steel for lasting service. It can be immersed in water to dispose of mice- hinged lid makes disposal simple. Its low profile design allows the Sure Catch to work where others fail such as beneath counters, gondolas and pallets.

Item #	MFG
95-750	Woodstream

### Ramik Multi Catch

Ramik Multicatch Mouse Trap is a non-toxic, child and pet safe formula used to get rid of your rodent problems. This trap requires no assembly and can be used with a glue board. Each trap will hold over a dozen mice at one time. Comes with a clear window for easy viewing.

Item #	MFG
21-63	Neogen

### Multiplex Bait Station

Exterior walls are double wall for super strength. No need for side opening- cover will stand out of the way against the wall. No lip to step over as with most stations. Grey color keeps internal temperature cooler.

Item #	MFG
21-53	Neogen

### Tomcat Glue Boards

Contains 2 glue boards. Non-poisonous trap for rats or mice.

Item #	Type
34-51	Mouse
34-52	Rat

### Tomcat Bait Station

Made of heavy-duty, injection molded plastic, Tomcat Rat Bait Stations will last in the toughest conditions. For use outdoors and indoors, especially around the perimeter of buildings to keep rodents from entering.

Item #	MFG

### Victor Sonic Pest Chasers

Sonic PestChaser® repellents emit high frequency sound waves to create an acoustically hostile environment that effectively repels rodents from protected areas. Sound is inaudible to people and non-rodent pets. For use in average-sized rooms, kitchens, garages, and basements. Provides years of useful operation. Ideal for environments where the use of poisons is inadvisable or prohibited. Perfect for homes, offices, summer homes, boats, restaurants, hospitals, farm buildings, kennels, stables, etc. Uses less than one cent worth of electricity per day. Plugs directly into an outlet.

Sonic repellents emit high frequency sound waves to create an acoustically hostile environment that repels rodents from protected areas.
