COMPANY ANNOUNCEMENTS

JCM TO HIT SOUTHERN GAMING SUMMIT. The Southern Gaming Summit hits the road May 4 and 5 at the Mississippi Coast Coliseum and Convention Center in Biloxi, Miss., and JCM will set up shop in booth 532. Headlining the event are JCM's Universal Bill Acceptor (UBA), Intelligent Cash Box (ICB) and Plastic Cash Box.

Also on display will be Trident, JCM's revolutionary table safe cash management system. The UBA is a fully loaded bill validator that combines improved bill-sensing technology with lightweight and durable plastic construction and comes complete with the latest sensing technology, utilizing magnetic and optical sensors. Further, the UBA has an automatic centering mechanism, viewing window, automatic retry feature, on-board memory, a USB download port and an anti-pullback roller device that prevents "stringing." The UBA also comes complete with a highly durable, backward/forward compatible plastic cash box. Build for speed and efficiency, the ICB system reduces errors commonly experienced by operators associated with tracking gaming assets and the revenue. The ICB standardizes the revenue drop and soft count function across the gaming floor, reducing support labor and increasing first-time reporting accuracy. In addition to time and cost savings, the ICB system provides analysis data for accountability and profitability. The product that was the hit of G2E 2004, the automated Trident system revs up the pit. The improved, automated process begins at the table, where the Trident replaces the plastic paddle and box. The Trident brings a secure, trackable, online system, with a 2,000 note capacity, giving the pit real-time drop data, continuous table status, secure asset tracking, and a complete audit of each asset dropped for the entire revenue day.
