HOW JACOB LITTLE MANIPULATED THE "HAPPY FAMILY" ORGANIZE AGAINST THE OLD CASTLE DROWER AND GET THE EXCITING DAY IN OLD TIDE HISTORY.

Mr. Jay Gould's little scheme for advancing his interests in the Old Castle Drower stock began with the sudden conversion of bonds into stock has attracted much attention. But it is much more than simply a movement to increase the volume of Old Castle Drower stock. It is a scheme for manipulating the old bond market with great success.

The scheme was laid for his family, the Old Castle Drower, so as in his earlier days he would have lost a rival to his control. The scheme was laid in such a manner that the stock of the Old Castle Drower was to be held for three years, and then sold. It was for the use of Jacob Little. If a man stood in the way of Old Castle Drower, he was dead set against him. Incomparable was much more effective than any other scheme. The scheme was laid for the Old Castle Drower, but there was no real man behind it. Everything had come as a complete surprise. Nothing could be more wonderful. Not even the most optimistic of the old bond market people could have predicted the success of the scheme.

Coombs, who had been an active opponent of the Old Castle Drower, was now an active supporter. The scheme was laid for the Old Castle Drower, but there was no real man behind it. Everything had come as a complete surprise. Nothing could be more wonderful. Not even the most optimistic of the old bond market people could have predicted the success of the scheme.

The scheme was laid for the Old Castle Drower, but there was no real man behind it. Everything had come as a complete surprise. Nothing could be more wonderful. Not even the most optimistic of the old bond market people could have predicted the success of the scheme.
