Our color conversion charts are designed to help you cross reference Glide™ thread to other thread brands. Cross referenced colors indicate the colors are similar but not necessarily a color match. Furthermore, because we cannot control the amount of color drift in competitive thread brands, we offer this chart as a reference only, and it is not intended to imply an exact color match between the cross-referenced colors. Color appearance will vary based on lighting conditions and angle of view.

Our color conversion charts are designed to help you cross reference Glide™ thread to other thread brands. Cross referenced colors indicate the colors are similar but not necessarily a color match. Furthermore, because we cannot control the amount of color drift in competitive thread brands, we offer this chart as a reference only, and it is not intended to imply an exact color match between the cross-referenced colors. Color appearance will vary based on lighting conditions and angle of view.

Our color conversion charts are designed to help you cross reference Glide™ thread to other thread brands. Cross referenced colors indicate the colors are similar but not necessarily a color match. Furthermore, because we cannot control the amount of color drift in competitive thread brands, we offer this chart as a reference only, and it is not intended to imply an exact color match between the cross-referenced colors. Color appearance will vary based on lighting conditions and angle of view.
