

Chair Clip Instructions

Ohana's Deep Seating Sets come with chair clips. These clips are applied underneath chairs to hold them together to ensure desired configuration stays put.

1. Lay down the chairs you wish to adjoin on its back for easy access to the bottom of chairs.
2. Attach the clip around one of the adjoining frames of chairs.

3. Push the clip and rotate it around the framework. The clip should not take much force to snap in place.

4. Use 2 clips for a pair of chairs.
