Dual Button Silent Alarm RC1235DF

Description:

The RC1235DF is a double-button fixed position hold up transmitter featuring a rugged, double-button design to help prevent false alarms, and a back tamper for tamper protection. The LED flashes on all transmissions, including supervision, so the user is reassured that the unit is operating.

Features:

- Double-button design helps prevent false alarms
- Includes back tamper for secure fixed position alarm signaling
- LED flashes with all transmissions, ensuring operation at a glance
- 3-5 year battery life
