

“Average” Presbyopic Additions

Determining your power is easy using the following method :

1. Print this page. (This is a PDF, you cannot determine the correct power viewing this on your monitor.)
2. Without wearing glasses, hold this paper approx. 14” from your face.
3. Start with the largest print size at the bottom of the page and work your way up.
4. The power to the right of the line that becomes difficult to read is the power you should order.

Please feel free to call our customer service line 303 . 955 . 8088 to speak with one of our Opticians.

We will be happy to help you navigate through the order process.

It's as easy as that!

**Power Selection Chart
Start From the Bottom**

Power to Order

If this is the first line that is not clear, I need	➡	+1.00
If this is the first line that is not clear, I need	➡	+1.25
If this is the first line that is not clear, I need	➡	+1.50
If this is the first line that is not clear, I need	➡	+1.75
If this is the first line that is not clear, I need	➡	+2.00
If this is the first line that is not clear, I need	➡	+2.25
If this is the first line that is not clear, I need	➡	+2.50
If this is the first line that is not clear, I need	➡	+2.75
If this is the first line that is not clear, I need	➡	+3.00
