

At this time we do not have a picture of the mower deck you are looking for. If you would like us to confirm a catcher fit for you, please take a picture of your mower's discharge opening with the deflector shield in the upright position and email it to [packemracks@aol.com](mailto:packemracks@aol.com).

Include your name, phone number, brand, model, deck size and year of mower.

Below is an example picture of how you should take your picture so we can confirm a catcher fit.

**It is NOT a picture of your discharge opening.**

**Also make sure that the discharge opening sticks out further than your rear wheel.**
