Do you want to know why he smells so lovely? It's because of Gerrard Larriett Aromatherapy! If you are not familiar with their products, you should be! Our customer survey about these soothing products had interesting results and the people that tried their Freshening & Shining Spray clearly loved it! But one thing is clear from the results is that we need to get the word out! According to Gerrard Larriett's website and Aromatherapy.com, Aromatherapy is the practice of using the natural oils extracted from flowers, bark, stems, leaves, roots or other parts of a plant to enhance psychological and physical well-being. It is used for everything from pain relief and mood enhancement to increased cognitive function. And as Holistic Health News reports, pets can enjoy the therapeutic effects of aromatherapy as much as humans can! Aside from making them smell great, essential oils also serve many practical functions such as boosting your pet's immune system, fighting off bacteria and viruses, as well as repelling harmful insects.

Available in three signature aromatherapy scents, Happy Jasmine, Balancing Rose and Relaxing Wildwoods, their products are natural, paraben-free and made in the USA. And their Treatment Experience packages make perfect gifts for the pet lover in your life. They come with an Aromatherapy Deodorizing Soy Candle, Aromatherapy Shampoo & Conditioner and an Aromatherapy Freshening & Shining Spray, all in an adorable Logo Tote Bag.

So start your furry pal on it's way to smelling and feeling great with an aromatherapy regimen today! Buy right [here](#) on our shop or at www.gerrardlarriett.com.
