QUALITY OEM REPLACEMENT FILTERS

## DONALDSON-P164370

| Product Attribute                        | Specifications  |
|--|---|
| Filter Type:                             | Hydraulic Pressure Line Filter Cartridge                                |
| Media Type:                              | Pleated Microglass  |
| Overall Height:                          | 12.96"  |
| OD:                                      | 3.12"   |
| ID:                                      | 1.70"   |
| Collapse Pressure:                       | 305 PSI / 3045 PSI High Collapse available                              |
| Operating Temperature:                   | -13° to 250°F   |
| Direction of Flow:                       | Outside-In  |
| Seal Material:                           | Viton   |
| Micron Rating:                           | 20  |
| Beta 200 Ratio:                          | 200/20 (99.5% efficiency)   |
| Media Available                          | Micron Ratings available  |
| Pleated Microglass Media                 | 1-micron, *3µm, 6µm, *10µm, *20µm, 40µm                                 |
| Pleated Paper Media                      | *10µm, *25µm, 40µm,   |
| Stainless Steel Wire Mesh Media (304 SS) | 10µm, 25µm, 40µm, 50µm, 60µm, 74µm<br>100µm, 125µm, 150µm, 200µm, 420µm |

\*Water Removal Media available

Millennium-Filters are guaranteed to meet or exceed OEM specifications in terms of form, fit and function. OEM part numbers for reference only.
