* SAAC puts on an action-packed Annual National Convention each summer, rotating it around the United States. You've probably already heard about these; more than 3,500 people show with upwards of 1000 cars at a professional racing facility the club rents for three or four days of activities. SAAC members have run their cars at Indianapolis Raceway Park, Watkins Glen, Portland International Raceway, Laguna Seca, Pocono, Mid-Ohio, Sears Point, Willow Springs, Road America, Lime Rock, Atlanta International Raceway and Charlotte. Convention activities include open track running, popular vote and concours car shows, parts swap, guest speakers and driver's schools. Carroll Shelby usually attends and has been known to give rides to members in a 427 Cobra or GT350 R-Model.

* SAAC also has organized and active regions across the country. They put on events which are tuned to the desires of local members and include car shows, parts swaps, picnics, open tracks and socials.

* SAAC publishes a World Registry containing historical and owner information on every car built by Carroll Shelby. The current issue, completed in December '97 is 1,336 pages and 840 photos. It covers every detail of every car.

* SAAC helps members authenticate genuine Shelybs and Cobras and helps them steer clear of fakes and counterfeits. The club also assists members in obtaining special stated-value insurance for their cars at reasonable rates and provides letters verifying the value of cars at no charge. SAAC has been actively and intimately involved with the cars built by Carroll Shelby over the years.
