

Until further notice, Berlin Gardens has made certain furniture pieces unavailable in select colors. There is a reason!

The manufacturer of the poly lumber that is used on Berlin Gardens furniture has had unusually high demand for their raw goods. As a result they have paused the manufacturing of certain Poly Lumber colors in order to try and keep up with demand.

Seashell is a color exclusive to Berlin Gardens and as a result not a part of the supplier's main product line. This supplier has paused the production of Seashell until they can catch up. No items are currently available in Seashell.

Several items within the Mayhew, Classic Terrace and one item in the Bristol collection are crafted using what's called slab poly lumber. This is another product that has been paused by the supplier for reasons stated above.

Any item not currently available in a specific color is noted when you are placing your order. But a summary of what is not available is below.

Alas! They will be available again. Be patient. It could be a while. If you'd like to be placed on a call list to be notified when these finishes become available again, please either call us at 877-595-8543 OR email us at help@OurdoorFurniturePlus.com.

Thank you for your business!
