MATERIALS

SUNBRELLA® QUILTED FABRIC is engineered with robust performance characteristics that provide resistance to fading and degradation from sunlight and chemical exposure, Sunbrella® fabrics are 100% solution-dyed acrylic, meaning the fibers are dyed in a color solution before they are woven—not printed on after the fabric's base cloth is made. These fabrics are also water-resistant, so the colors stay true for a long period of time.

POWDER-COATED ALUMINUM is both lightweight and extremely durable. The rust-proof nature of the welded powder-coated aluminum frame offers high quality and strength, making it a great fit for high-traffic outdoor environments.

COMPOSITE SLING is used in seat and cushion construction. Sling is a composite mesh fabric woven using PVC-coated polyester threads to create commercial grade material ideally suited to the outdoor environment.

CUSHIONS feature quick-dry construction with a waterproof bag encasing the foam core and a vented bottom to allow for drainage.

CARE

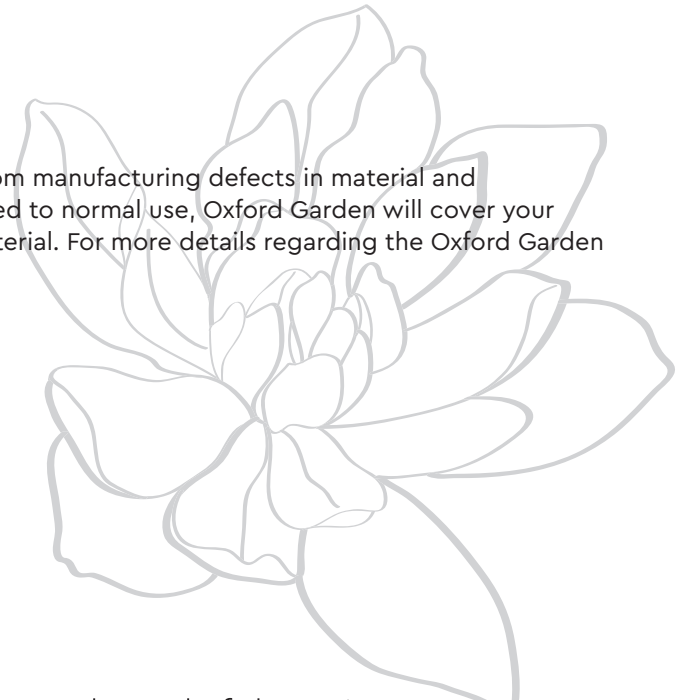

SUNBRELLA® QUILTED FABRIC & CUSHIONS should have dirt brushed off before it becomes embedded and liquid spills cleaned as soon as they occur. Blot (don't rub) with a clean, dry cloth. For oil-based spills, apply an absorbent such as corn starch, then remove by scraping gently with a straight edge. Spray with a mild cleaning solution (such as Dawn® or Woolite®) and water. Rinse the fabric thoroughly to remove all soap residue and air dry. Repeat if necessary.

POWDER-COATED ALUMINUM requires little maintenance; however, regular cleaning is recommended to keep furniture looking new. Wash gently with a mild, non-abrasive cleanser. Rinse well and let dry.

COMPOSITE SLING can be cleaned using a stiff brush and a mild, non-foaming, commercial cleanser. Rinse thoroughly to remove all soap residue and air dry.
