DESCRIPTION

With a beautiful, dense grain, teak is a superior wood for the construction of outdoor furniture. Left untreated, it will weather naturally to a beautiful silver gray color.

DURABILITY

Teak has a high oil content making it resistant to rotting, bug infestation, warping, and splintering, as well as the effects of wind, rain, sun, and snow. Mortise and tenon joint construction adds strength and longevity. Some surface roughness may develop, but over a period of about one year the natural weathering process will stabilize. Under normal conditions and if used as intended, the expected lifetime of Oxford Garden teak products is fifteen years.

CARE AND MAINTENANCE

For seasonal cleaning, rinse and use a sponge or soft bristle brush to scrub with a mild cleaning solution. Rinse with fresh water and let dry.

WARRANTY

Oxford Garden® warrants all outdoor furniture and accessories to be free from manufacturing defects in materials and workmanship. Provided the furniture is assembled correctly and is subjected to normal use, Oxford Garden® warrants all teak products for a period of three (3) years from date of purchase against structural failure, wood rot, and insect infestation. Oxford Garden® also warrants all hardware used in the construction of its outdoor furniture for a period of three (3) years from the date of purchase to be free from defects and against structural failure. For more details regarding the Oxford Garden® warranty, visit www.oxfordgarden.com/warranty.
