DESCRIPTION

BEA’s LPR36 is a 36 inch actuator that exceeds all local ADA building codes requiring high and low actuators, eliminating the need to install two separate devices.

This stainless steel plate utilizes four highly-sensitive membrane switches that require very little force and ensure actuation across the entire surface. This functionality enhances accessibility for those with limited mobility or disabilities.

Available in wireless and hard wire versions, the LPR36 can be conveniently mounted in a variety of locations.

FEATURES & BENEFITS

- Full-length plate for maximum accessibility
- Low profile (1 inch deep) design helps prevent accidental damage in high traffic areas
- Exceeds California Building Code 2013, Page 559, 11B-404.2.9, Exception 2c
- Easily installs on either walls or bollards for maximum mounting flexibility
- Available with convenient, built-in wireless transmitter (300, 433 or 900 MHz frequencies) for wireless activation applications
- Activation area of 36 × 6 inches (216 square inches)
NOT RECOMMENDED FOR USE IN AN ENVIRONMENT WHERE IT WILL BE DIRECTLY EXPOSED TO WATER. FOR EXAMPLE, OUTDOOR, NOT PROTECTED FROM DIRECT RAIN.
