DESCRIPTION

This pushplate series (10PBJMx) is designed to fit neatly into a BEA jamb-style pushplate box or to be mounted directly to a door jamb. It can be quickly installed with only a drill with drill bits, a center punch and a #6-32 tap set. The faceplate is made of 1/16” thick stainless steel for durable use.

INSTALLATION INSTRUCTIONS

1. Determine the mounting location of the pushplate. Use the enclosed mounting template if the pushplate is to be attached directly to the door jamb, otherwise, the pushplate will mount directly into a jamb-style BEA box (10BOXJAMBSM or 10BOXJAMBFM).
2. If the pushplate is to be mounted directly to the jamb tube, use the template and mark the drill locations by marking the holes with a hammer and center punch. Then drill three (3) ½” dia. holes where marked, and then drill two (2) additional holes (with a 7/64” bit) and tap for a #6-32 thread.
3. Wire the switch of the pushplates to the door controllers using the normally open contact and common.
4. Fasten the pushplate to the mounting location.
5. Test the pushplate for proper activation. Note: the switch will not make an audible click when activated.

PUSHPLATE CLEANING

The pushplates are constructed with durable stainless steel and painted with scuff-resistant coatings. To clean the plates, use only a damp, non-abrasive cloth. Repeated cleaning with harsh solvents or abrasive materials may cause deterioration of the coating. Please make the end-user aware of this procedure.

COMPANY CONTACT

If after troubleshooting a problem, a satisfactory solution cannot be achieved, please call B.E.A., Inc. for further assistance during Eastern Standard Time at 1-800-523-2462 from 8am - 5pm.
For after-hours, call East Coast: 1-866-836-1863 or 1-800-407-4545 / Mid-West: 1-888-308-8843 / West Coast: 1-888-419-2564. DO NOT leave any problem unresolved. If you must wait for the following workday to call B.E.A., leave the door inoperable until satisfactory repairs can be made.
NEVER sacrifice the safe operation of the automatic door or gate for an incomplete solution.
