The next garage door opener evolution

**ABOUT SOMMER**

SOMMER is one of Europe’s leading manufacturers of high-quality garage door openers and wireless control systems. Worldwide, SOMMER serves more than 90 countries.

SOMMER USA distributes its products from Charlotte, NC to all points throughout North and South America. Every single one of SOMMER’s garage door openers sold in the U.S. is engineered and manufactured in Germany to the highest standards. We are committed to world class customer service and outstanding product integrity. All products are easily installed, safe and secure, sporting sleek modern designs and offering many advantages exclusive to the SOMMER name.

Once SOMMER, Always SOMMER.

*SOM@web*

SOM@web allows you to remotely operate and monitor your garage door from a Smartphone, Tablet, PC or Apple Watch. The system will send you real-time alerts when door is open, closed or left open. You can also integrate videos and manage the access of your guests. With the use of IFTTT and Amazon Echo, you can remotely open or close your garage door via GPS or via voice commands.

**Remote Access**

- User Management
- Vision acoustic alarm
- Voice Commands
- Temperature alarms

**Remote Control**

- Control 3 doors with 1 device
- Calendar of events

**Video Monitoring**

- Integrated with Raspberry Pi
- FHD-2K or 4K
- 2-way audio
- Easy to install

The next garage door opener evolution
THE NEXT GENERATION OF OUR GARAGE DOOR OPENERS

QUALITY
• Generously sized and smoothly operated garage door operation
• Reliable operation even in the event of power failures
• Unlimited warranty on the motor
• 5-year warranty on accessories (photo sensors, wall station, transmitters)

SAFETY
• Automatic object and force detection system
• Automatic locking and unlocking system in case of an attempted break-in
• Very secure 128-bit encryption radio technology (rolling code)
• Emergency release can be locked or unlocked in any position
• Optional battery backup for emergency operation in the event of a power failure
• Optional locking magnet for motor, locks in any position

FLEXIBILITY
• Radio long enough for 30 tall doors
• Easy shortening or lengthening of the track possible (available extensions: 25”, 40”, 55”)
• No additional led lighting, buzzer, or rail extension possible
• Rail extension for 120” doors (30”, 60”, 90”, 120”)

INTELLIGENCE
• Automatic learning process; self-learning force curve with continuous adjustment
• Optimal speed profile for quick opening and secure closing
• Automatic optimization of door operation through direct entry of measured opening forces
• Active locking for moving doors
• Unattended setting and training options via SOMlink

ACCESSORIES
Create your own optional value-added product

LOCK
The communication bridge to your operator
The SOMlink module offers a wide variety of setting options for your new SOMMER products on your smartphone or tablet by means of the Web app.

SOMtouch (Wireless Keypad)
The SOMMER Telecody+– wireless keypad allows you to operate your SOMMER garage door opener by simply entering your personal code.

SOMlink (Wireless Wall Button)
The battery operated Wireless Wall button can also be used as a remote control:
• operate up to 3 garage door openers
• carry-out in car or on helmet

SOMEsensor (Sensor)
For the security in your home, the SOMMER garage door operator is equipped with a wide range of optional safety sensors.

SAFETY
• Automatic object and force detection system
