When you have a hectic schedule to manage, the last thing you need to worry about is providing access to your business. With our first Wi-Fi® commercial door operators, you can stay in control of daily operations from anywhere and will always know that your facility is safe and secure while you’re away.

**Anywhere Assurance**
Always know the status of your door.

**2-Year Warranty**

**Remote Access**
Built-in Wi-Fi® makes it easy to stay connected to your business. Receive alerts and open and close doors from anywhere with the MyQ® App.

**Open for Business**
Battery Backup powers up the operator when the power’s out to keep your doors working no matter what. Battery not included. Requires purchase of Model 485LM.

**Smart Lighting**
MyQ® Remote LED Light 827LM
Can be scheduled to turn on and off through the MyQ® App.

**Increased Security**
Automatic Door Lock 841LM
Deadbolts the sectional door every time it closes, making it virtually impenetrable. Works with the LJ8900W only.

**Reliable Operation**
Battery Backup Capable 485LM
Keeps the operator working in a blackout so employees can still get in and out.

**Total Control**
1-Button Remote Control 811LM
Ideal for commercial applications requiring a large number of remotes for a common entrance.

**The Bottom Line:**
Enhanced safety: Automated doors reduce the risk of workplace injuries so employees can get the job done safely.

Lasting reliability: Smooth start/stop protects your door from wear and tear over time.

Efficient management: Control and monitor your business from anywhere, without having to return to the office.

Reduced maintenance: Smooth operation and quiet design protect your door from the abuses that consistent manual operation can cause.

**Smart Lighting**
MyQ® LED Light 827LM
Can be scheduled to turn on and off through the MyQ® App.

**Increased Security**
