PANTHER SERIES
PUSH PLATES WITH INTEGRATED WIRELESS TECHNOLOGY

DESCRIPTION
BEA’s Panther series consists of 900 MHz or 433 MHz wireless technology integrated into 6 inch round, 4.75 inch round and 4.75 inch square push plates.

With an integrated wireless transmitter and mounting box, the Panther series reduces installation time by eliminating the need to run wires from the push plate or use additional mounting hardware. This offers greater mounting flexibility in areas where hardwired push plates cannot be mounted.

FEATURES & BENEFITS
• 1/16 inch thick stainless steel for maximum durability
• Concealed fasteners minimize vandalism
• NEMA 4 rated housing creates a weather resistant barrier that enables the push plates to be mounted in outdoor environments or wash-down applications

*Corresponding wireless receiver sold separately
# Technical Specifications

## Dimensions

## Material

- Faceplate: 16 Gauge, 304 2B Stainless Steel
- Housing: ABS Plastic

## Degree of Protection

- NEMA 4 / IP65
- FCC IC Part 15 Approved

*Corresponding frequency receiver required.

**See 433 MHz and 900 MHz Users’ Guides for more information on BEA’s wireless transmitters and receivers.
