A Classic, Economical Value

Armstrong Flooring creates products that push the limits of color, pattern, performance, and sustainability to meet the multiple demands of modern interiors. Developed through our Continuum™ Solutions, Excelon® VCT harmonizes with other products across the entire Armstrong Flooring portfolio to help you execute your design intent.

The durable construction ensures lasting beauty in high-traffic areas, while flowing linear patterns, organic looks, and densely patterned earth tones effectively mask scuffs and soil in busy spaces. Colors range from vivid hues to quiet neutrals with a large selection of light-reflective colors that can have a big impact on energy reduction strategies and savings.

With Excelon® VCT having one of the lowest carbon footprints among all our resilient flooring products, it is an ideal choice for hallways, classrooms, and cafeterias in schools and colleges, retail, mass market, grocery stores, food venues, and a wide range of public environments. It's versatile, durable, and easy to maintain using standard maintenance protocols.

Select VCT collections are now available with Diamond 10® Technology Coating In-Stock or as a Made-To-Order tile. Keep tile floors looking newer longer, and with lower maintenance costs.

Trusted Long Term Performance

- Decades of industry-leading performance and durability
- Leader in the industry for over 50 years
- High quality with a reliable warranty

Healthy Environments

- Ortho-Phthalates Free* and heavy-metal free
- Low VOC Emissions and FloorScore® certified
- Composed of 85% North American limestone
- Recyclable through the On&On™ Recycling Program
- Third-party certified Environment Product Declaration (EPD)
- Helps conserve energy when high light-reflective colors are selected

** Select product lines are ortho-phthalate free, with the exception of recycled content.*

Exclusive Fast Start® Factory Finish

- Protective layer during installation
- Makes initial maintenance quick and easy

Through-Color/Pattern Wear Layer*

- Pattern/color wear performance:
 - High durability
 - Gouge resistance
 - Rolling load impact resistance
 - Appearance retention

The Surfacing of a New Commercial Tile

Now, you can order Armstrong VCT and BBT with Diamond 10® Technology coating, keeping your tile floors looking newer longer at a lower maintenance cost than traditional VCT. Save up to 40% on average compared to VCT traditional polished maintenance procedures.

Patent-pending Diamond 10 Technology provides a protective coating, improving resistance to scratches, stains and scuffs. It enables you to use less floor polish to maintain your floor, reducing cost of ownership significantly over the life of your floor.

Reduced Cost of Ownership

Maintain your floors for less money than traditional VCT with floor polish maintenance procedures.

- Reduce initial application of floor polish by 50%.
- Reduce or eliminate restorative floor polish stripping and recoating.

Beautiful Floors, Minimal Prep

Maximize gloss levels and create a more uniform overall appearance with as little as three coats of a high-quality commercial floor polish.

Maintain VCT at a Lower Cost

VCT with Diamond 10[®] Technology coating is a reduced maintenance product that will help you save on costly polish maintenance.

- Reduce initial application of floor polish by 50%
- Routine periodic maintenance procedures
- Eliminates or reduces the need to strip the floor

Diamond 10[®] Technology Coating available on:
Raffia[®] Stream™: *In-stock*
Imperial[®] Texture: *Made-To-Order*
MultiColor™: *Made-To-Order*

SUPERIOR SCRATCH, STAIN AND SCUFF RESISTANCE

VCT with Diamond 10® Technology coating delivers best-in-category scratch, stain and scuff resistance with reduced cost of polish maintenance over the life of the floor.

SCRATCH RESISTANCE

Each product was scratched using an abrasive pad under a 12.5 lb. load for 20 passes, simulating commercial traffic.

VCT with Diamond 10® Technology coating

Competitive Vinyl Enhanced Tile

VCT with 6 coats of polish

Competitive Base-Grade LVT positioned to replace VCT

COMMERCIAL STAINS AND SCUFF

After scratching, samples were stained, wiped with a dry paper towel, and then an alcohol wipe. The samples were also scuffed with a rubber heel and wiped with a dry cloth.

Let Your Imagination Flow

Raffia Stream with Diamond 10® Technology coating brings together VCT featuring visuals with streaming accents, flowing over a rich contrasted base - all protected by a coating with improved resistance to scratches, stains, and scuffs.

Step Boldly or Tread Lightly

A color palette that includes rich bold hues and tranquil neutral tones enable your designs to conjure a sense of fluidity within a space – or striking interior with bold pops of color! As part of Continuum™ Solutions, Raffia Stream works seamlessly with other Armstrong Commercial Flooring products to create beautiful, coordinated spaces, allowing you to choose the right flooring structure for the space you are designing without compromising your vision. Larger format, 12 in. x 24 in. VCT tiles enable more design possibilities.

Diamond 10® Technology Coating—cultured diamond-infused coating
◦ Provides a protective coating, improving resistance to scratches, stains and scuffs.

Through-Color/Pattern Wear Layer*
◦ Pattern/color wear performance:
High durability
Gouge resistance
Rolling load impact resistance
Appearance retention
