

# Management Software for Low-Cost Environment Monitoring Systems ENVIROMUX®

Optional Management Software for E-MICRO-T, E-MICRO-TRHP, and E-1W.

- Intuitive graphical management software provides an easy-to-use, unified interface for both monitoring and configuring up to 3,000 E-MICRO-T, E-MICRO-TRHP, and E-1W units and all connected sensors via Ethernet.
  - Units may be monitored and configured individually or in a group.
    - Changes can be pushed to all units in a group at once.
      - ♦ E.g. new users, mail server, network settings, security settings, system settings, etc.
  - Display values and status for individual sensors or list of sensors.
  - Scrolling sensor summary pages can include selected sensors from a specific unit, all units, or a pre-configured group of units.
    - Filter specific sensors from multiple units for close monitoring.
  - Sensor history graph shows readings from up to the last 120 days.
  - Client/server architecture
    - Server application actively polls all units for status information as well as listen for alerts from all units.
    - Client application communicates with the server to read statuses and to deploy configuration changes.
  - Multiplatform support: Windows XP/Vista/7/8/10, Windows Server 2000/2003/2008/2012, Solaris, Linux, FreeBSD, and MAC OS 9/10.
  - Requires Java Runtime Environment 1.7 or later.
  - NTI will provide customer, without charge, copies of any appropriate updates/enhancements for 12 months. This software update service is optionally extendable every twelve months for 20% of list price.
