

** These are only approximate color samples. Colors will not match exactly with the finished product. There are many variables that effect color such as moisture, color of the concrete, and your computer monitor settings will effect the way these colors look. Again these are only approximate color samples and are not intended for exact comparisons. Colors will also vary between blocks of the same color. We do not guarantee any color will be exactly like the ones shown, we will do our best to get the color as accurate as possible.*
