

Part #: 2100-LTEGSM4

Features

- The Cellular Gateway uses 4G LTE technology and is Communication Failure Compliant
- Compatible with all RATH® SmartPhone VI elevator phones
- The cellular software checks the network connection throughout the day and if the network connection is compromised, the software will alert the SmartPhone which will provide a trouble signal to the Communication Failure Annunciator until the network has been restored
- Requires an AT&T account or optional 2 year pre-paid SIM card from RATH® (Part # ATTPLAN-2)
- Requires a POTSWAP style plan for voice only or a voice/data plan when using with voice and as a pass through device
- Standard FXS port to allow a 2-wire connection from elevator phone, machine room phone, or lobby master
- Includes RS232 serial connector and CANBUS connector
- Use as a pass through for controller logic on a wireless platform
- Surface mounted
- Includes antenna
- FCC registered
- UL 62368-1 listed
- **Internal Battery:** 12v, 800mAh (meets ASME requirements for 4 hours talk time)
- **Voltage Rating:**
Idle: 110-120v, 50/60Hz, current draw 40mA
Active: Current draw 80mA
- **Dimensions:** 4.3" H x 8.3" W x 2.6" D
- **Power Requirements:** 120vac, 10VA
