## On-Board Programming

Note that Telco lines and some PBX systems only provide a limited amount of time to program the phone before the line tells the phone to hang-up. See page 2 for a programming template and tips to assist in programming the phone in these situations.

### Step 1:   Begin Program Mode

a.  Plug the phone line from the phone into a phone jack
b.  Press the **ON/OFF** key, then slide **S15** to **ON/PROG** (see photo)
c.  Press **5**, **\***, (**1 or 2**)
    1 = Standard number dialing
    2 = Ring down operation (no dial tone)

### Step 2:   Program Emergency Numbers

a.   First emergency number press **1**, **\***, (**key in the phone number**), **VOL** key
b.   Second emergency number press **2**, **\***, (**key in the phone number**), **VOL** key
    **Note:** For a "pause" press the **ON/OFF** key.

### Step 3:   Program Location Message

a.  Press **7**, **\***, (**0, 1, 2, or 3**)
    (0 = No message, 1 = Plays once, 2 = Plays twice, 3 = Plays until you press #)
b.  Press **4**, **\***, (wait for the beeps to finish) (speak location message), **VOL key**
    **Note:** If option 3 is selected, at end of message add the phrase: "For two-way communication, press **#** four times after the beep".
    **Note:** Called party can replay message by pressing **\*, \***.

### Step 4:   Program Timer

a.  Press **6**, **\***, (**3-digit time in minutes = 000 to 999**)
    **Note:** Timer function is needed when the phone system does not provide a disconnect signal as in the case of some Ring Down lines or PBX systems.

### Step 5:   Program Auto Answer

a.   Press **8**, **\***, (**1 or 2**) (**1 is ON and 2 is OFF**)
    **Note:** Auto answer is set to ON at the factory.

### Step 6:   End Program Mode

a.   Slide **S15** to **1** and press the **ON/OFF** key

If the phone turns off during programming it is because many Telco lines and PBX systems provide a limited amount of time to program the phone. In these cases, it is imperative to quickly move through the phone programming. A template is offered below to assist in programming the first emergency button.

**To program a phone where multiple numbers or auto answer is to be programmed, follow these steps:**

1. Press the **ON/OFF** key, then dial a number such as your cell phone. Answer the cell phone and do not hang-up the call.
2. Slide S15 to **ON/Prog**.
3. Perform all the programming steps on page 1.
4. When programming is completed, slide S15 to 1.
5. Press the **ON/OFF** key to hang-up the call to your cell phone.

**Programming Template**

1. Fill in the emergency phone number in the spaces provided in step 2.

2. Then follow the directions provided in step 1.

   **Step 1:** Press the **ON/OFF** key, then slide S15 to **ON/Prog**

   **Step 2:** Press **1**, **\***, _ _ _ _ _ _ _ _ _ _, **VOL** key
