

VISTA

ADVANCED SECURITY AND ALARM COMMUNICATIONS
FOR TODAY'S HOMEOWNER

The Secure Connection

Honeywell

PROTECTED...AND CONNECTED!

ADVANCED COMMUNICATIONS

Thanks to Honeywell's VISTA security system, you can make sure that the most reliable technology is protecting your property and the people you love. VISTA can communicate alarm signals with more than just a phone line—giving you more flexibility by using the Internet and GSM wireless radios as either the primary or backup method of alarm transmission. It's a great solution for cell phone-only homes or people that rely on Voice Over IP (VoIP) digital telephone service.

VISTA's built-in communicators can provide you with enhanced security by alerting you when a child comes home from school, if a valuable object has been moved, if extreme temperature is detected and more. VISTA is a system that provides added reliability, security and convenience. It's simply the best way to stay protected...and connected.

VISTA provides a range of options that keep you aware of what's going on in and around your home and provide you with the peace of mind and protection you deserve. Choose from:

- **Keypads** that are easy to use and put security at your fingertips. Choose from standard or wireless versions, keypads that speak, or sleek graphic touchscreens that match any décor and double as digital picture frames.

- **Fire and Life Safety Products** including professionally installed wireless smoke, heat and carbon monoxide detectors that are connected to your alarm system and can be monitored 24 hours a day.

- **Remote Controls** that let you arm and disarm your security system from a distance, activate panic alarm and control lights and garage doors

- **Environmental Sensors** to help prevent spoilage, damage from flood and extreme temperatures. They're ideal for basements, bathrooms, kitchens, freezers and laundry rooms.

- **Wireless Indoor Theft Prevention Sensors** that alert you when an attempt is made to move or disturb valuable objects within your home, including flat screen TVs, heirlooms, paintings and more—even when the system is disarmed

- **Wireless Outdoor Motion Sensors** that alert you when someone is on your property. They are ideal for sheds, garages, pool areas and driveway alerts.

- **Glassbreak Detectors** provide shatter and shock protection for your windows to further enhance your perimeter protection

TOTALLY CONNECTED!

You can opt to combine your security system with Honeywell's Total Connect Remote Services, which let you utilize the Internet and various mobile devices to view live video and receive updates about activity in and around your home wherever you are.

- If flood or extreme temperature change is detected, if motion is sensed in a specific indoor or outdoor area or if a protected asset is moved, you can receive e-mail alerts and notification via your PC or laptop, iPhone®, iPad™, cell phone or BlackBerry®. A free, convenient Apple® iPhone App is also available.

- The system can be customized to trigger an alarm in several ways, including sending a message, recording from a video camera or chiming a keypad
- Multiple account capability—lets you monitor vacation homes, investment properties and businesses with one log-in

The Ultimate Protection

With VISTA, you'll have the ultimate protection—knowing that the proper authorities can be summoned to your home in the event of a burglary, fire or other emergency regardless of the communications path used. Ask your security professional for more information!
