

Before Installing the PRO Series Security System

Download the full **Installation and Setup Guide** for the system from mywebtech at <https://mywebtech.honeywellhome.com>. Watch the available **Installation training videos** that are located under "Security" at [YouTube.com/resideosupport](https://www.youtube.com/resideosupport). Both sites can be accessed via a smart device using the QR codes located on the back side of this document.

Follow the simple steps below to configure and install the PRO Series Control Panel.

CREATE

- Create a Customer Account using AN360 web site or mobile app with the new panels MAC and CRC.

CONNECT

- Install Cellular, WiFi/ZWave and/or Takeover Communication Modules as applicable.
- Mount the Wall Plate or attach the desk stand. Connect Power Supply Wiring and Install and Connect the Battery.
- Secure the Panel to the Backplate and plug in the Power Supply (allow 2 minutes for the system to power up) and connect to a Wi-Fi network, when prompted or select Next to use LTE Cell only communication with AN360.
- Allow the panel to connect to AN360 and download any programming that has been setup earlier

CONFIGURE

- Using AN360 web site or mobile app, program all panel settings and enroll sensors, keypads, keyfobs, touchscreens, Z-Wave devices, etc.
- Sync the Control Panel once all programming is complete.

CONFIRM

- Test the System. Confirm that all programmed sensors are operational and reporting to the Central Station.

COMMISSION

- Commission the system and train the Customer to properly use the PRO Series Control and Total Connect 2.0.
