

ProSeries Wi-Fi®/Z-Wave® Communications Module

PROWIFIZW

The ProSeries Wi-Fi/Z-Wave Communications Module combines the connectivity of Wi-Fi and the automation of Z-Wave into one easy to install module. The module connects directly to the control panel and is powered by the control panel's connection.

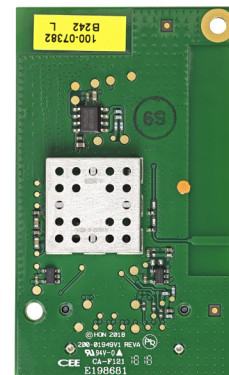

The PROWIFIZW Communications Module provides a communications path for alarm signaling and remote connectivity to advanced functionality of PROWLTOUCH Wireless Keypad and built-in Amazon Alexa services.

The PROWIFIZW module enables local automation control over Z-Wave capable lights, locks and thermostats. Optionally, automated control can be extended remotely by combining with Resideo's Total Connect Remote Services.

Compatible ProSeries Controllers include:

- PROA7PLUS
- PROA7PLUSC
- PROA7PLUSCN

The PROWIFIZW requires a router and Internet service for Wi-Fi connection to the central station and Amazon Alexa services.
