

**SPECIFICATIONS:**

Furnish and install Musson Grit-Surface aluminum stair treads 3/16" thick, 7-1/2" (GSA75), 9" (GSA9) or 11" (GSA11) deep. Tread surface shall have aluminum oxide abrasives permanently bonded to a heat treated aluminum nose stair tread. The front grit-surface of the tread shall be in \_\_\_\_\_ color; the back surface shall be in \_\_\_\_\_ color; colors to be separated by an aluminum rib. Select colors from standard grit colors of black, brown, blue, gray, green, red or yellow. Treads can be supplied with two countersunk holes every 12" for screw down installation, or without holes for installation with our #400 Neoprene Contact Cement.
