

# 5878

## WIRELESS REMOTE KEYPAD

Honeywell's easy-to-operate, quick install wireless solution provides convenient fingertip control of alarm systems, lights or garage doors. The 5878 performs the same functions as other four-button keyfobs while

providing the added convenience of two extra buttons to control lamp modules and a two-button panic. It is compatible with all 5800 Series Wireless Receivers.

## FEATURES

- Six buttons, eight loops (Two serial numbers with four loops)
- Sleek, super thin design
- Mounts to single-ganged box (screws included), double-sided tape (included) or hides in a drawer
- LED flashes to confirm that signal has been sent
- User replaceable lithium coin cell battery included
- Extra buttons make it easy to control lamp modules
- Extra button inserts for easy customization
