The SEM is also compatible with the VISTA-21iP, **if the Internal IP/GSM Jumper is set in the OFF position**.

To determine if the SEM is compatible with your panel, locate the date on the chip on the inside of the panel. The SEM is compatible on panel versions 2005 to present.

⚠️ **The SEM is not compatible with POTS.** The SEM should be the only communication path for alarm signaling to the central station.

Please see your Account Development Executive for more information on panel compatibility.
