

# RA-18 Water Cooler

## Open/Enclosed

1. This rack will hold a round water cooler (5 gal. or 3 gal.) in either an enclosed trailer or open trailer.
2. To install in an enclosed trailer hang the hook piece on top rail of trailer inside wall in desired location.
3. Hang cooler rack on hook pin and slide down on pin.
4. Using the predrilled holes, screw rack to inside wall of trailer.
5. Secure the cooler to the rack using the straps provided. This step is the same for the open trailer.
6. To install on an open trailer discard the hook piece. Place rack on angle iron top rail of trailer. Mark and drill holes. (curb inside)
7. Using the predrilled square holes bolt to rail of trailer using grade-8 carriage bolts.
