

# ONE SOURCE BATTERIES, FLORIDA, LLC

*Your One Source For Batteries!*

## COVID-19 UPDATE

Dear One Source Batteries Customers

I hope this note finds you, your family and associates well. One Source Batteries is closely monitoring developments with respect to COVID-19, including information and guidance published by government and healthcare authorities.

One Source Batteries is open for business and here to help. Currently we are operating at limited capacity and are working to meet our customers' needs to the best of our abilities. We are also taking precautions within our organization to minimize the spread of COVID-19. Plans have been developed to continue our operations as changes are required or mandated. We are also closely monitoring our suppliers around the world.

Currently, COVID-19 has only started to impact the long-term supply of parts from the following manufacturers:

Arts Energy  
Saft  
Titus

However, we believe that we have adequate inventory in stock and in the supply chain to satisfy projected needs. Supply has not impacted One Source Batteries ability to deliver any services at this time. Our Chinese suppliers are slowly coming online with production and shipping but because of our planning we still have adequate inventory and supplies.

One Source Batteries would like to request any information from our customers regarding forecasted product needs or strategy. This will allow us to plan and develop our internal plans accordingly to support your strategy.

We will continue to provide updates as there are changes that affect our organization and ability to meet customers' requirements. If there is a specific need or requirement you would like to review or discuss, please contact us at [Support@OneSourceBatteries.com](mailto:Support@OneSourceBatteries.com) or call us at (888) 321-9264.

Thank you for your business as we continue to focus on supporting your requirements. We will communicate updates to our plans and notify you of changes.

Respectfully,  
Matthew Kuhn
