

## ROBUSTA MEASURING & ORDERING INSTRUCTIONS

STEP 1 - Measure the window Height (A). Choose the appropriate MODEL# with the awning projection that best fits your requirements. See Height Recommendations.

STEP 2 - **NOTE: The actual awning fabric width is 6-inches less than frame width selected.** Measure the outside Width of the window casing (B) and select the required dimension.

STEP 3 - Select the fabric color that best compliments your home or office.

### IMPORTANT NOTICE:

Retractable Awnings are NOT Returnable. Please review the product details and instructions and verify all information before ordering. Retractable window awnings are designed for solar protection only and are NOT designed for use in rain, snow, ice or wind conditions.
