

SPEAR AWNING MEASURING & ORDERING INSTRUCTIONS

- Below are approximate mounting positions.
- Please insure there is adequate mounting space above the window or door with no obstacles.
- For mounting above outward opening doors, we recommend the awnings with at least a 40-inch projection.
- Spear Awning typically cover one-third (1/3) of the window's overall glass height; but NOT Mandatory.
- Support Arms are typically mounted 12-inches below the Height of the Awning; but NOT Mandatory.
