Kresto® Classic

Special hand cleanser with solvent and a non-aggressive natural scrubbing agent for super heavy duty skin cleansing, ideal for the toughest industrial dirt.

Description

Special hand cleanser with solvent and a non-aggressive natural scrubbing agent for super heavy duty skin cleansing, ideal for the toughest industrial dirt. The special solvent used is free from toxicologically questionable ingredients, such as halogenated or aromatic hydrocarbons.

It cleans extremely well in cases of intensely stubborn industrial dirt (e.g. grease, oil, soot, metal dust, lacquers, adhesives, etc.) that cannot be removed by products that are free of scrubbers and solvents without putting excessive stresses on the skin.

Kresto® Classic has been tested and proven not to clog drains or pipes. It is easily rinsed away and is not prone to swelling.

Area of Application

For super heavy duty contamination, for instance from waste, mineral and lubrication oils, graphite, metallic dust and carbon black which can only be removed with a solvent-containing hand cleanser.
