

TIPS FOR LIGHTING HEIGHT AND SIZE

Many of the questions we receive from homeowners are about height and size of their light fixtures. A beautiful chandelier can make a statement in a room, but if it's not in proportion it can throw the whole look off. Here are some helpful tips when it comes to lighting height and sizes:

Astro Collection

What is the height a chandelier should hang above a table?

The bottom of the chandelier should hang 30"-32" above the table.

Astro Collection

Sylvan Collection

How low should a chandelier hang with a two-story ceiling?

Chandelier should hang 10'-11' above the floor.

Solaris Collection

How wide should a chandelier be?

To size a chandelier in your room, measure the length and the width of the room and add those figures together.

*Example:
The room size is 12" x 14" (12+14=26)
The chandelier diameter should be 26"*

Filmore Collection

How wide should a chandelier be if the table size is...

To size a chandelier to your table, measure the width of your table and divide by 2.

*Dining table seats 4-6 people;
the chandelier diameter is 20"-24"*

*Dining table seats 6-8 people;
the chandelier diameter is 25"-29"*

*Dining table seats 8-10 people;
the chandelier diameter is 30"-36"*
