

Lovibond® Water Testing

Tintometer® Group

VARIO DPD Reagents

The Lovibond line of VARIO DPD Powder Pack Reagents are pre-measured, unit dose reagents that have been formulated for use in our CHECKIT® Comparator Test Kits, Colorimeters and Spectrophotometers.

All VARIO chemistries have the advantage of being suitable for use in other manufacturer's instruments, test kits and other devices.

Parameter	Description	Qty.	Lovibond® P/N
Chlorine, Free	VARIO DPD Free Chlorine Reagent, F5	100 ct.	53 00 90
	VARIO DPD Free Chlorine Reagent, F5	1000 ct.	53 00 93
	VARIO DPD Free Chlorine Reagent, F10	100 ct.	53 01 00
	VARIO DPD Free Chlorine Reagent, F10	1000 ct.	53 01 03
	VARIO DPD Free Chlorine Reagent, F25	100 ct.	53 01 10
	VARIO DPD Free Chlorine Reagent, F25	1000 ct.	53 01 13
Chlorine, Total	VARIO DPD Total Chlorine Reagent, F5	100 ct.	53 00 80
	VARIO DPD Total Chlorine Reagent, F5	1000 ct.	53 00 83
	VARIO DPD Total Chlorine Reagent, F10	100 ct.	53 01 20
	VARIO DPD Total Chlorine Reagent, F10	1000 ct.	53 01 23
	VARIO DPD Total Chlorine Reagent, F25	100 ct.	53 01 30
	VARIO DPD Total Chlorine Reagent, F25	1000 ct.	53 01 33

New Powder Pack Design

EASY TO OPEN AND HANDLE

- Each pack has a "pre-tear" notch -- no scissors necessary!
- Our powder packs are 37% larger than the leading competitor--which makes them easier to handle--especially when wearing gloves.

BEVELED EDGE

- Helps to ensure all of the powder reagent comes out.
- Prevents reagent from getting "stuck" in the corners of the pack.
