1S-11T	11/32"	6,000	3.8

CONSTRUCTION Kernmantle
COVER Technora®
CORE Nylon

This Technora® over nylon core rope is the original high strength no-melt prusik line. Technora® is eight times stronger than steel and highly resistant to heat, acids, alkalis and organic solvents and is not vulnerable to damage caused by steam or sea water.

Accessory Cord Family Code: 1S

Kernmantle Composite Accessory Cord

This versatile kernmantle composite rope has a shock absorbent nylon core and a high abrasion resistant polyester cover that is soft enough to provide excellent holding power when tying prusik knots.
